

Children's Day In offers early childhood programs for children as young as 9 months old through 5 year olds and those not yet ready for Kindergarten. We operate on the school year calendar (Mid-August through Memorial Day). Our facility is open from 9am to 2:30pm Monday through Friday during the school year.

We are a play based school and believe that children learn best through constructive and purposeful play. We thrive to provide the very best experiences and educational environment for each child.

Lambs

- 9 months by September 1
- Student/Teacher Ratio: 4:1
- Classroom Maximum: 8
- 2 day minimum/4 day max

Our Lambs class is a wonderful, loving, caring environment for your child's first "school" experience. We will help you both transition into being separated from each other in a very healthy way. Your child will explore an exciting new world of toys and friends under the watchful eye of nurturing caregivers. We will sing songs, read books, play, laugh, climb and just romp about during the morning play time. A small snack is provided. You provide a lunch and diapers—we'll take care of the rest!

Ducklings

- 18 months by September 1
- Student/Teacher Ratio: 4:1
- Classroom Maximum: 12
- 2 day minimum/4 day max

A Ducklings day is filled with fun and exploration. These busy toddlers have the perfect environment to learn and play with things around the room at their level. Low tables and play spaces are perfect for developing dexterity and creating messy crafts. In addition to free play in the classroom, these active kiddos will venture out to the playground on nice days and down to the muscle room for active play when weather does not permit us to go out. A small snack is provided. You provide a lunch and diapers—we'll take care of the rest!

Teddy Bears

- 2 years by September 1
- Student/Teacher Ratio: 6:1
- Classroom Maximum: 12
- 2 day minimum/4 day max

Teddy Bears are two but already think they're big stuff! Anticipating potty training, we've got the perfect size potty right in the classroom. Independence is certainly the name of the game in this classroom. Free play includes dress up, book reading, coloring, playdoh, and of course cars and trains! There isn't much that these 2's don't have in the classroom. Teddy Bears also go to music and movement time in addition to the playground and/or muscle room. A small snack is provided. You provide a lunch and diapers or pull-ups—we'll take care of the rest!

Butterflies

- 33 Months by September 1
- Student/Teacher Ratio: 6:1
- Classroom Maximum: 12
- 2 day minimum/4 day max

The Butterfly class is a transitional class for older 2's and younger 3's. Children in the Butterfly class get a bit more structure than the Teddy Bears but may not be ready for a 3 day a week program, (or the families need more flexibility). The Butterflies may be working hard on potty training but are big stuff for sure! The day is packed with activity including art, music, playdoh, dress up, cars, puzzles, and much more! Children will go the music room and the playground/muscle room daily. A small snack is provided and you provide lunch!

Orange Fish

- 3 years by September 1
- Student/Teacher Ratio: 9:1
- Classroom Maximum: 18
- Tuesday-Wednesday-Thursday
- Must be confidently and independently potty trained

Green Frogs

- 4 years by September 1
- Student/Teacher Ratio: 9:1
- Classroom Maximum: 18
- Tuesday-Wednesday-Thursday
- Focus on Kindergarten readiness

Fun Fridays

- Children must also be enrolled in Orange Fish or Green Frogs
- Offers a 4th day option
- Student/Teacher Ratio: 9:1
- Classroom Maximum: 18
- Includes cooking, (& sampling), science, discovery, and plenty of outside time discovering nature and using our large muscles!
